

Declaration regarding the Stockholm Convention (2019) and the European Regulation on Persistent Organic Pollutants (POPs) (2019/1021)

This declaration is intended to clarify our compliance with the Stockholm Convention on Persistent Organic Pollutants (2019) and the European Regulation on Persistent Organic Pollutants (POPs) (2019/1021).

This question, like all other sustainability related topics, is very important for our business. Teknikprodukter has evaluated our products and materials carefully, including our sourcing and packaging. Additionally, Teknikprodukter Nordic AB works proactively with our own supply chain to ensure ongoing environmental compliance.

The substances listed in the Annexes A, B and C of the Stockholm Convention (2019) and the European Regulation on Persistent Organic Pollutants (POPs) (2019/1021) are to the best of our knowledge and available information not intentionally used for manufacturing of the products we supply to you.

To the best of our knowledge and available information we confirm our products fully comply with the provisions of the Stockholm Convention (2019) and the European Regulation on Persistent Organic Pollutants (POPs) (2019/1021) as of 23 February 2021 (last amended by Commission Regulation (EU) 2021/277).

In case we should identify possible impacts in our supply chain at a later stage, we will keep you informed about any alterations.

Teknikprodukter Nordic AB has a high standard for human health and environmental awareness. The policy of Teknikprodukter Nordic AB is to be fully compliant with all relevant legislation and to work closely with suppliers and customers regarding all sustainability actions. This declaration is part of our policy to keep our customers fully informed about our sustainability commitment.
